

BUILD. CODE. MAKE ROB MOVE.

Start with a circuit. Discover the signals and software that bring a real robot to life.

01

BUILD A CIRCUIT

Connect a virtual LED.

02

SEND A SIGNAL

Try a pulse or packet.

03

MOVE ROB

Explore motors and motion.

ASK ROB A QUESTION

Send ROB an iMessage.

rob@orbitusrobotics.com

Curious about robots, circuits or code? ROB will respond to your questions.

Use Apple Messages on iPhone, iPad or Mac.
